

# Senior Electronic Designer (f/m/d)\*

Permanent

Full-time

## Warum zu uns

Empower People. Create Success. At Tagueri, our people and teamwork take center stage. We are passionate about what we do, contribute proactively, and give our very best - both professionally and personally - every single day. Together, we celebrate our achievements, big and small, genuinely support one another, and take pride in each other's success. Advance your career with us and explore a wide range of opportunities to develop individually, share and expand your knowledge and ideas, and take ownership of your own projects.

## Was wir gemeinsam vorhaben

- **Promote Teamwork:** Collaborate closely with your colleagues and share technical expertise.
- **Take Responsibility:** Plan and execute tasks in electronic hardware development projects.
- **Design High-Speed Circuits:** Develop PCBAs with a focus on high-speed signal design and modern interface technologies.
- **Simulate and Validate:** Perform signal integrity simulations and validate performance against design requirements.
- **Manage Constraints:** Define and apply constraint management strategies for board layout and routing.
- **Work with Interfaces:** Design and analyze connector interfaces using S-parameter models.
- **Ensure EMC Compliance:** Integrate electromagnetic compatibility (EMC) principles into your design process.
- **Stakeholder Management:** Communicate both internally and externally, and collaborate closely with project teams, stakeholders and customers.

## **Worauf Du Dich freuen kannst**

### **Our Unique Corporate Culture:**

- A warm and appreciative work environment where every personality matters
- Open communication and accessibility— from junior team members to senior executives
- Numerous team and company events, including our annual summer festival with our families

### **Our Benefits for Well-being and Growth:**

- Smart working options, such as remote work, flexible working hours, sabbaticals, and workations

### **Our Shared Journey:**

- Comprehensive onboarding with an extensive mentoring program
- A wide range of internal training opportunities and external development support
- An international exchange program to foster personal and professional growth within the corporate group

And much more.

## **Was Du wissen solltest**

**We Are Looking for Unique Personalities!**At Tagueri, we don't just evaluate applications for a specific position - we see every application as an opportunity to connect with talented individuals. In a personal conversation, we'll explore together whether your goals and our vision are a great match. Don't see a suitable role or location? No problem! Feel free to send us an unsolicited application - we have similar opportunities at other locations as well. We'd love to share more details with you in person. Send us your application via email at [bewerbung@tagueri.com](mailto:bewerbung@tagueri.com) or use the "Apply Now" button (maximum file size: 35 MB).

## **Womit Du überzeugst**

- You hold a degree in electrical engineering, electronics, or a related technical field.
- You have hands-on experience in PCB design and high-speed signal development.
- You are familiar with signal integrity simulation tools and validation methods.
- You understand constraint management and its impact on board performance.
- You have knowledge of connector technologies and S-parameter analysis.

- You incorporate EMC requirements into your design thinking.
- You enjoy working in a team and see mutual support and collaboration as a given.
- You take a proactive approach, driving ideas and solutions forward independently.
- You work autonomously and are confident in taking ownership of your tasks and results.
- You have excellent Dutch and English skills, both written and spoken.
- Ideally, you also have knowledge of German.
- Note: Please submit your CV in English or German.

## **Wer wir sind**

Wir bei Tagueri sind Brückenbauer zwischen strategischer Unternehmensberatung und operativer Umsetzung. Mit rund 600 Mitarbeitenden sind wir deutschlandweit im Einsatz. Zu uns gehört auch der Energiespezialist con|energy consult gmbh. Mit unseren praxisbezogenen Beratungsmethoden und fundierter Technologieexpertise unterstützen wir namhafte Unternehmen aus den Branchen Automotive, Energie, Luft- und Raumfahrt, Bahn und Verteidigung. Die Herausforderungen unserer Kunden sehen wir als Chance, gemeinsam innovative und zukunftsfähige Lösungen im Technologie-, Projekt- und Prozessmanagement zu schaffen.

\*Wir bekennen uns zu den Grundsätzen der Gleichbehandlung und Nichtdiskriminierung. Die Vielfalt unserer Mitarbeiterinnen und Mitarbeiter in Bezug auf Geschlecht, Hautfarbe, Alter, Herkunft, persönliche Interessen, Religion, sexuelle Orientierung und Geschlechtsidentität betrachten wir als Bereicherung. Diskriminierendes Verhalten wird von uns nicht toleriert. Dieses Bekenntnis zu Vielfalt und Inklusion haben wir durch die Unterzeichnung der Charta der Vielfalt bekräftigt.
