Warum zu uns

Empower People. Create Success. At Tagueri, our people and teamwork take center stage. We are passionate about what we do, contribute proactively, and give our very best - both professionally and personally - every single day. Together, we celebrate our achievements, big and small, genuinely support one another, and take pride in each other's success. Advance your career with us and explore a wide range of opportunities to develop individually, share and expand your knowledge and ideas, and take ownership of your own projects.

Was wir gemeinsam vorhaben

- **Promote Teamwork:** Collaborate closely with your agile team and other teams within the sub-domain. Share your technical expertise and contribute to a culture of mutual support and continuous improvement.
- **Take Responsibility:** Take ownership of implementing designs and requirements provided by System Engineers and Software Architects. Ensure your code meets high standards for quality, safety, and security.
- **Develop Robust Software:** Write clean, maintainable code in Java and C++ on Linux platforms, using development environments like IntelliJ. Contribute to the design and delivery of requested features.
- **Automate and Integrate:** Apply Continuous Integration & Delivery practices using Jenkins, Nexus, Maven, Git, and Bitbucket to streamline development and deployment processes.
- **Test and Validate:** Ensure software reliability through unit testing with JUnit and automated testing using Cucumber. Maintain a strong focus on quality throughout the development lifecycle.

- **Manage Complexity:** Work effectively in a multi-team agile environment, balancing technical requirements with system-level constraints and priorities.
- **Collaborate Across Teams:** Communicate clearly with internal stakeholders and collaborate closely with project teams, System Engineers, Software Architects, and customers.
- **Stakeholder Management:** Communicate both internally and externally, and collaborate closely with project teams, stakeholders and customers.
